

GYANASTU PREMIUM

Finance. Technology. AI. Careers.

Building Industry-Ready Professionals for the Digital Economy.

"From Education to Employability"

Degrees Are Increasing. Employability Is Not.

The Gap

Every year millions of students graduate with degrees in B.Com, BBA, MBA, M.Com, and other Commerce Streams.

Academic Knowledge $\neq$ Industry Readiness

Companies Hire For:

Employers struggle to find candidates who can contribute immediately. They look for:

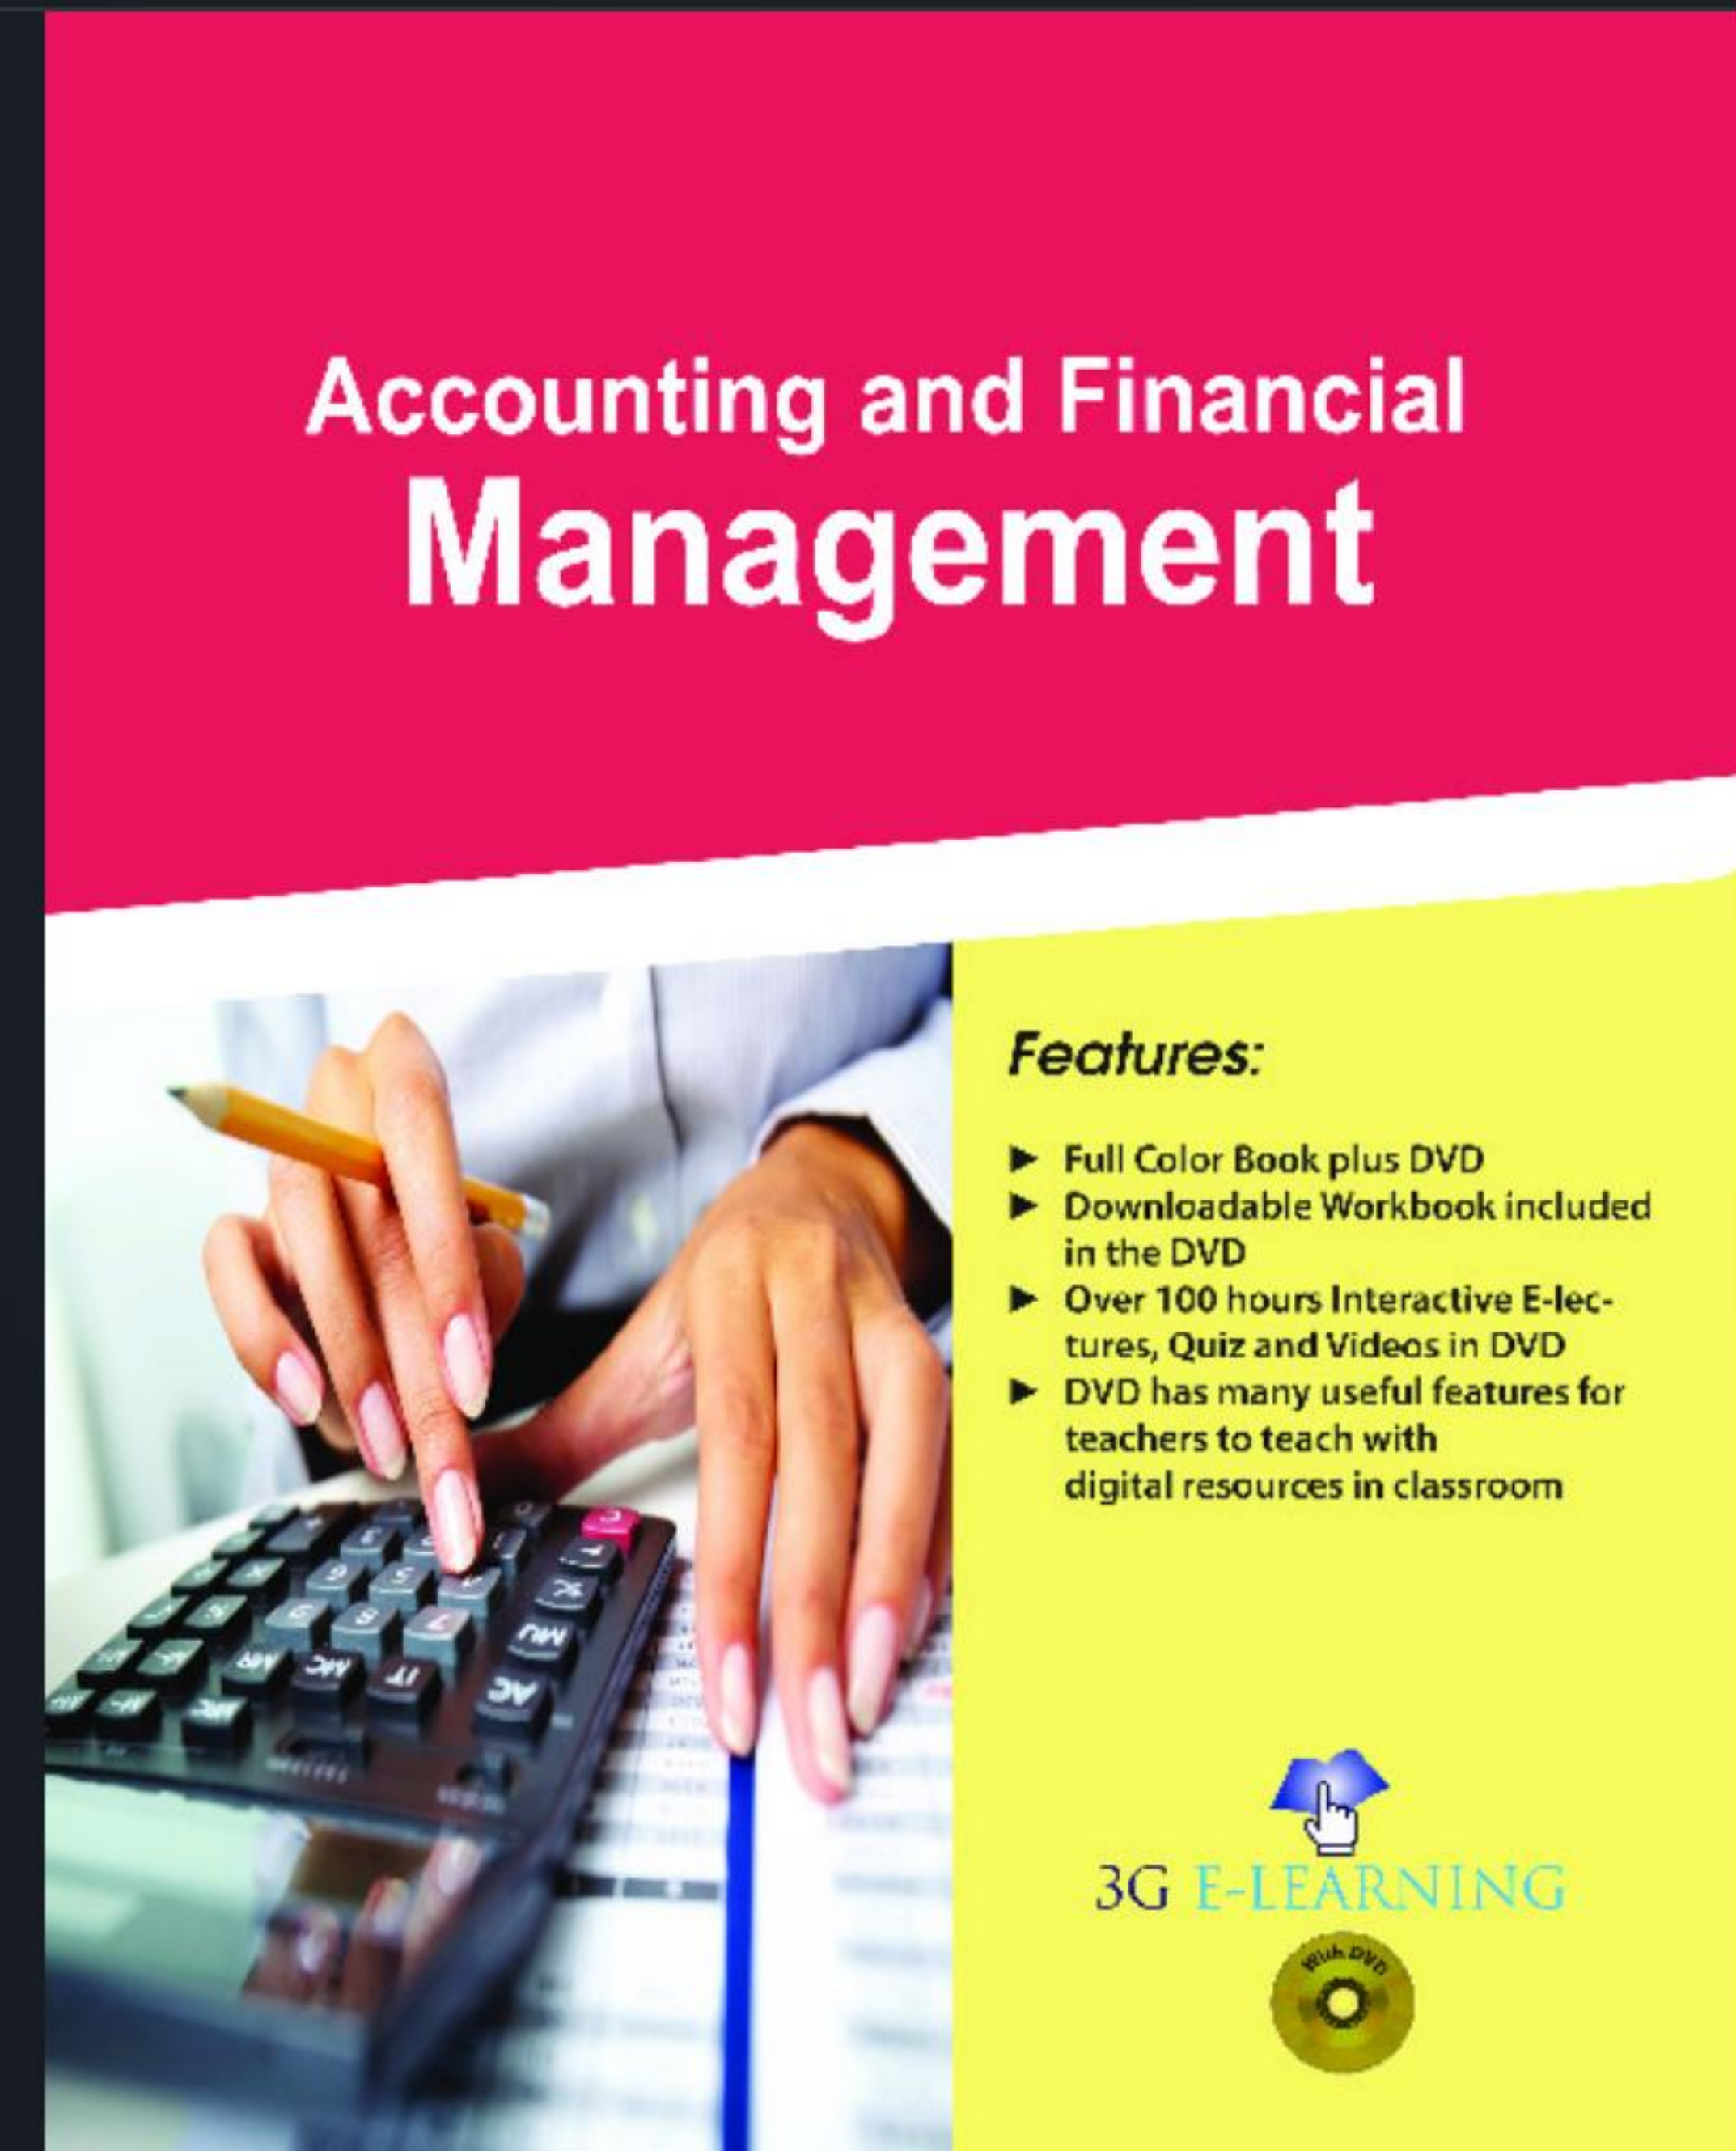

- Skills & Productivity
- Software Knowledge
- Business Understanding
- Technology Adaptability

How the Market Worked Earlier

Traditional Employment Model (2010)

Education → Job → Company Training → Career

- Companies invested heavily in training fresh graduates.
- Freshers were expected to learn **after** joining.
- Processes relied on manual accounting and paper documentation.
- Long training cycles and limited technology adoption.

The New Hiring Formula

Skills + Technology + Productivity
+ Communication = Employability

Modern employers expect candidates to be:

- Job Ready
- Software Ready
- Process Ready
- Technology Ready
- AI Ready

Organizations now prefer professionals who can contribute immediately after joining.

The Finance Industry Transformation

Finance Is No Longer Only Accounting

Yesterday

- Manual Bookkeeping
- Data Entry
- Ledger Maintenance
- Paper Reports

Today

- ERP Systems
- Cloud Accounting
- Real-Time Reporting
- Financial Analytics

Tomorrow

- Intelligent Automation
- AI Decision Making
- Predictive Finance
- Autonomous Processes

India Is Entering the Finance Technology Era

Businesses are rapidly adopting:

- ERP Solutions
- Cloud Accounting Platforms
- Automation Tools & AI Technologies
- Digital Compliance Systems

This creates enormous demand for professionals with combined finance and technology skills.

The Problem Gyanastu Solves

Students Learn Theory.

Most institutions teach based on outdated frameworks:

- Theory & Memorization
- Passing Exams
- Traditional Curriculum

Companies Need Skills.

Industry requires immediate capability and execution:

- Practical Knowledge
- Software Skills
- Business Processes
- Technology Understanding

This is exactly where **Gyanastu Premium** creates value.

Introducing Gyanastu Premium

One Student. Five Career Pathways. One Industry Ecosystem.

Account Technician
